

Top Feed Companies

sidebar). Also of note this year, three African feed firms, including two new additions from South Africa and Egypt's Wadi Group, have made this year's ranking.

On the horizon

Early forecasts predict a bumper crop year for most grain markets. Without any major hiccups,

i.e. natural disaster, inclement weather or political strife, drops in commodity costs may present some interesting data in the coming editions of the Top Feed Companies report. ◀
